TRIA AMERICAS PRODUCTS MANUFACTURING UPDATE

Product Change Notification PCN25008

Products Affected:

AES-ZU7EV-1-SOM-I-G

Subject: Removing Heat sink from the Bill of Material

Reason for Change: Thermal management requirements for this SOM vary widely depending on the customer application and the clock rate of the logic so it is not possible to have one solution that fits all. For this reason, we are removing the standard heat sink from the Bill of Material and will leave it to the customer to provide thermal management to suit their unique needs.

Product Identification: All product shipped after September 10, 2025, will require a customer provided thermal solution.

NOTE: This product should not be operated without an appropriate thermal solution and failure to provide this will void the product warranty.
