TRIA AMERICAS PRODUCTS MANUFACTURING UPDATE

End-of-Life Notification EOL26001

Products Affected:

AES-ZU7EV-1-SOM-G

Effective Date: January 6, 2026

Last time buy: January 6, 2026 (or while supplies last)

Last time ship: March 27, 2026

Subject: Product End-Of-Life

Reason for Change: In an effort to extend the product lifecycles of the UltraZed 7EV family the commercial temp product is being discontinued and that volume requirement redirected to the industrial temp equivalent product.

Volume quotes may be available for production build to order opportunities.

Recommended Replacements: The industrial temp replacement “AES-ZU7EV-1-SOM-I-G” is identical to the commercial temp with the only exception being the extended operating temperature of UltraScale+ component. The XCZU7EV-1FBVB900I (-40 to 100C) is populated in place of the XCZU7EV-1FBVB900E (0 to 100C).

There are no additional hardware or software modifications required when making this change.
